

My Measurement Challenge!
Learning to measure with cubes and rulers

Part 1: Match the Words

Draw a line from the word to the matching picture.

String
Rubber
Tall

1. **Word Bank Challenge:** Use the words below to finish the sentence.

string tall rubbers

To find out how my tower is, I can measure it with _____.

Part 2: Hands-On Non-Standard Units

Grab your measuring tools and let's get to work!

2. **Measure Your Desk!**
Place your hands flat on your desk, side-by-side. Measure how long your desk is from one side to the other.

My desk is _____ hands long.

3. How many rubbers long is this shoe?

The shoe is _____ rubbers long.

Page 1

Differentiated Challenges
Extra tasks for measuring with blocks and rulers!

Level 1: Foundation (Easier)

9. How many buttons long is the paintbrush?

The paintbrush is _____ buttons long.

10. Measure the Glue Stick with the ruler below.

The glue stick is _____ cm.

11. The glue stick is (**shorter** / **longer**) than the paintbrush.

12. How many blocks long is the toy train?

The toy train is _____ blocks long.

13. Which word is a **unit** of length? Circle the correct answer.

Triangle Metre Green

14. Mr Darra measured this pencil with blocks. Did he do it correctly? Circle YES or NO.

YES NO

Page 3

Mr Darra says: "3 is bigger than 2, so my Glue Stick must be longer!"

Explain why we cannot measure one thing with rubbers and another thing with pencils to compare their sizes:

Reading for Fluency
Let's practice reading like experts!

The 3 Keys to Good Reading

- Accuracy:** We sound out tricky words instead of guessing.
- Expression:** We don't read like a robot! Our voice goes up at a question mark (?) and we take a breath at a full stop (.).
- Understanding:** We make a movie in our head about what the words mean.

22. **Paired Reading:** Read this story to your partner using the 3 Keys.

Today, Mr Darra showed us how to measure. We learned that we must use the same unit to compare sizes! If Mr Darra uses pencils and Mr Darra uses rubbers, we get confused. Mr Darra raised his hand and asked, "But what if my pencils are short?" Mr Darra smiled. "That is a great question!" he said. Then, Mr Darra asked, "Can we just use a ruler instead?" We all agreed that rulers make measuring fair. Do you know how to use a ruler?

23. **My Reading Checklist:** Tick the boxes after you read!

- ☐ I sounded out the tricky words.
☐ I stopped at the full stops.
☐ I know what the sentence means.

Page 5

Part 3: Using a Ruler (cm)

4. Use the ruler below to measure the marker in centimetres (cm).

The marker is _____ cm long.

5. **Level 2:** This battery does **not** start at 0. Find the length.

Starts at: _____ Ends at: _____ Length: _____ cm.

6. **Tree Challenge:** Measure the **height** of the tree and Mr Darra.

The tree drawing is _____ cm tall.

Mr Darra is _____ cm tall.

Part 4: Length Logic

7. **Ordering (Baseline):** Order these lengths from **shortest** to **longest**.

18 cm, 64 cm, 42 cm, 110 cm

Shortest: _____ → _____ → _____ → Longest:

8. **Estimation:** How tall is Ms _____? Circle one.

170 cm 17 cm 17 m

Page 2

Level 2: Intermediate (Medium)

15. Find the total length if you put the marker and the battery together.

Hint: Marker = 6 cm, Battery = 3 cm. What is the total?

Working: _____ Total: _____ cm.

16. Write a word from your word bank that can be used to measure a curved line.

Answer: _____

Level 3: Extension & Reflection

17. **Super Challenge (Mixed Units):** Order these lengths from shortest to longest.

15 cm, 3 m, 110 cm, 1 m, 80 cm

Shortest: _____ → _____ → _____ → Longest:

18. This stick does **not** start at the first cube. How many cubes long is it?

The stick is _____ cubes long.

19. Write a sentence explaining **how** you found the length of the stick when it didn't start at the beginning.

20. **Word Problem Challenge:** A piece of wood is 1 metre long. Mr Darra cuts off 20 cm. How long is the wood now?

Working: _____ Answer: _____ cm

21. **The Measurement Trap!** Mr Darra asked two students to measure items.

- Mr Darra measured a Pencil Case. It was **2 pencils** long.
- Mr Darra measured a Glue Stick. It was **3 rubbers** long.

Page 4

24. **Writing: Teach an Alien!**

Write 3 sentences to teach an alien how to measure your desk.

First, I _____

Next, I _____

Finally, I _____

25. **Reflection:** What was the trickiest part about measuring today?

I thought _____ was tricky because _____

Page 6
